

Change in SWX2200-8G Operating Temperature

This is to announce that the SWX2200-8G Operating Temperature specification has been changed from '0°C to 40°C' to '0°C to 50°C' to meet market demands after internal quality evaluation process.

This applies to all commercial products for ASEAN countries including its past shipment.

Operating Temperature	Previous Specification	Present Specification
	0°C to 40°C	0°C to 50°C
